

## Flair Airlines summer schedule to include new Canadian destinations *Route expansion aligns with airline's commitment to provide affordable travel*

**Edmonton, Alberta, July 23, 2020** – Flair Airlines is thrilled to begin service in the cities of Prince George, Fort McMurray, Regina, and Saskatoon, with a much-anticipated return to Victoria. All flights are available for purchase at <https://flyflair.com>.

"We continuously receive requests from our passengers to service these communities," says Jim Scott, CEO. "Many of these areas are experiencing reduced accessibility, and we know that Canadians need affordable air fares now more than ever. We are committed to supporting these communities across the country as they safely reopen to travel."

As Flair continues to lead the way with affordable options, safety remains their highest priority. Passengers who choose to travel can expect to complete a visual mask check, answer a health check questionnaire, and have their temperature taken prior to boarding the aircraft. Enhanced aircraft disinfecting measures and the use of HEPA filters will remain in effect for the foreseeable future. HEPA filters remove 99.99% of particles, including viruses, and circulate fresh air into the cabins every two to three minutes.

As the country begins to reopen and travel demand increases, Flair is here to provide Canadians with affordable, friendly, dependable, and safe air travel.
